

BRISTOL + Friction Stays

A new range of high performance friction stays from Schlegel, designed to meet the high demands for modern window security.

- Suitable for side hung (casement) or top hung (awning) PVC-u, timber or aluminium windows.
- Innovative end cap design ensures optimum weather sealing in closed position.
- Proven performance under negative wind load.
- Heavy duty and light duty options.
- Awning - Sash weights from 12kg to 90kg.
- Casement - Sash weights from 24kg to 42kg.
- Designed for standard window cavities 12mm - 18mm.
- Can be screwed or rivetted to the frame and sash
- Manufactured from a combination of high quality 304 grade stainless steel and nylon components affording improved durability.
- All profiles tested to 20,000 cycles and above.
- Adjustable friction mechanism.
